

C-CODE OPTIMIZATION

for ARM based Embedded Systems: Next Steps

seminari e laboratori gratuiti con esempi passo passo in presenza e online

AGENDA

09.00 Welcome

09.10 Introduction to the importance of optimizing C code on Cortex-M.

09:20 Overview of the Cortex-M architecture

09:40 Best practices for writing generally efficient C code

10.20 Coffee break

10.30 Architecture-specific optimizations for Cortex-M

11.45 Lunch

12.30 Next Steps: Optimization methods

15.00 End

5 marzo 2025
